

# SYNTHETIC OPEN WORK AREA

Build 05 demonstration | 100 x 60 ft drawing | No real facility

Estimated CO2 (ppm)  
User-defined ranges

- value < 800
- 800 <= value < 1200
- value >= 1200

Contributing observations: 3  
Search distance: 100 ft  
Grid spacing: 2 ft  
IDW, power 2, up to 8 nearest points, minimum 3  
Uncolored areas: no estimate  
Spatial estimate between observations; walls, airflow, and changes over time are not modeled.

Illustrative equipment in an open area - synthetic observations
